

“Kyst Kalejdoskop”

David A. Garcia

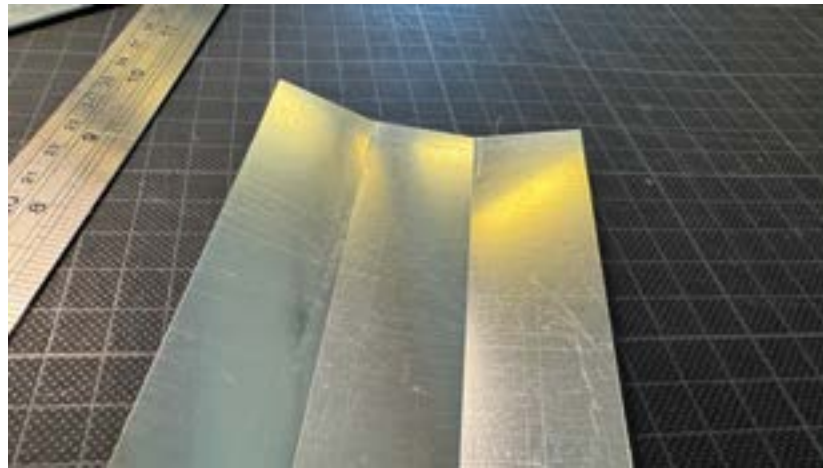

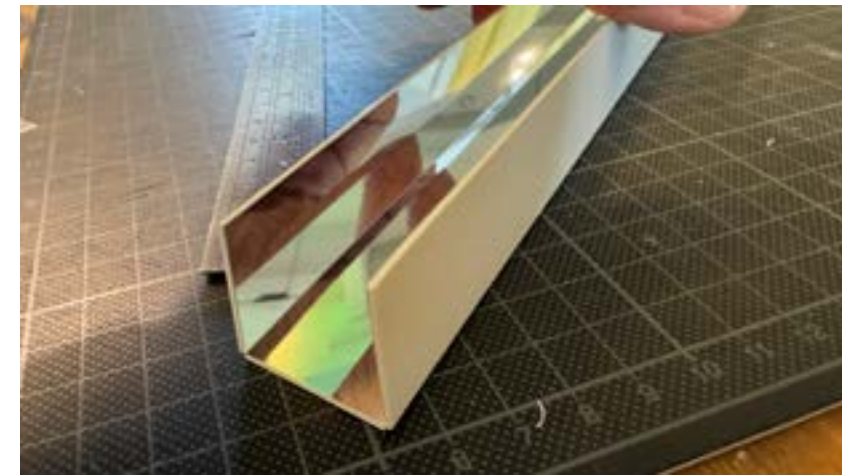

**“skær
(men ikke
hele vejen
igennem) tre
striber på
bagsiddenden
af et stykke
plastspejl”**

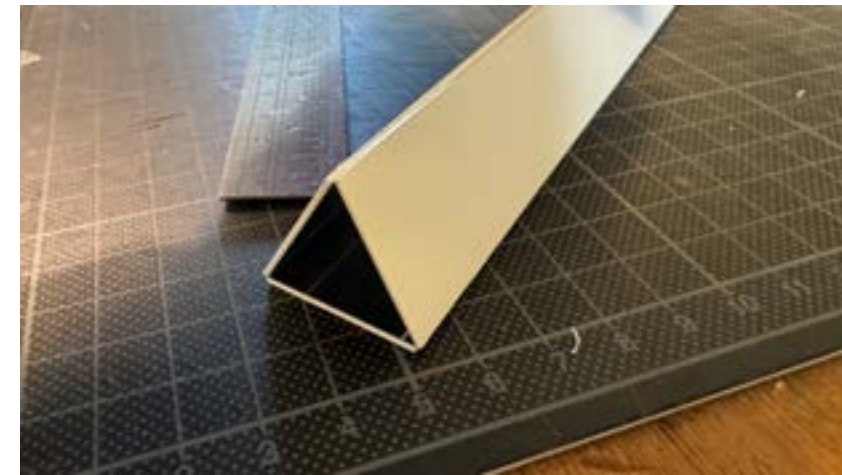

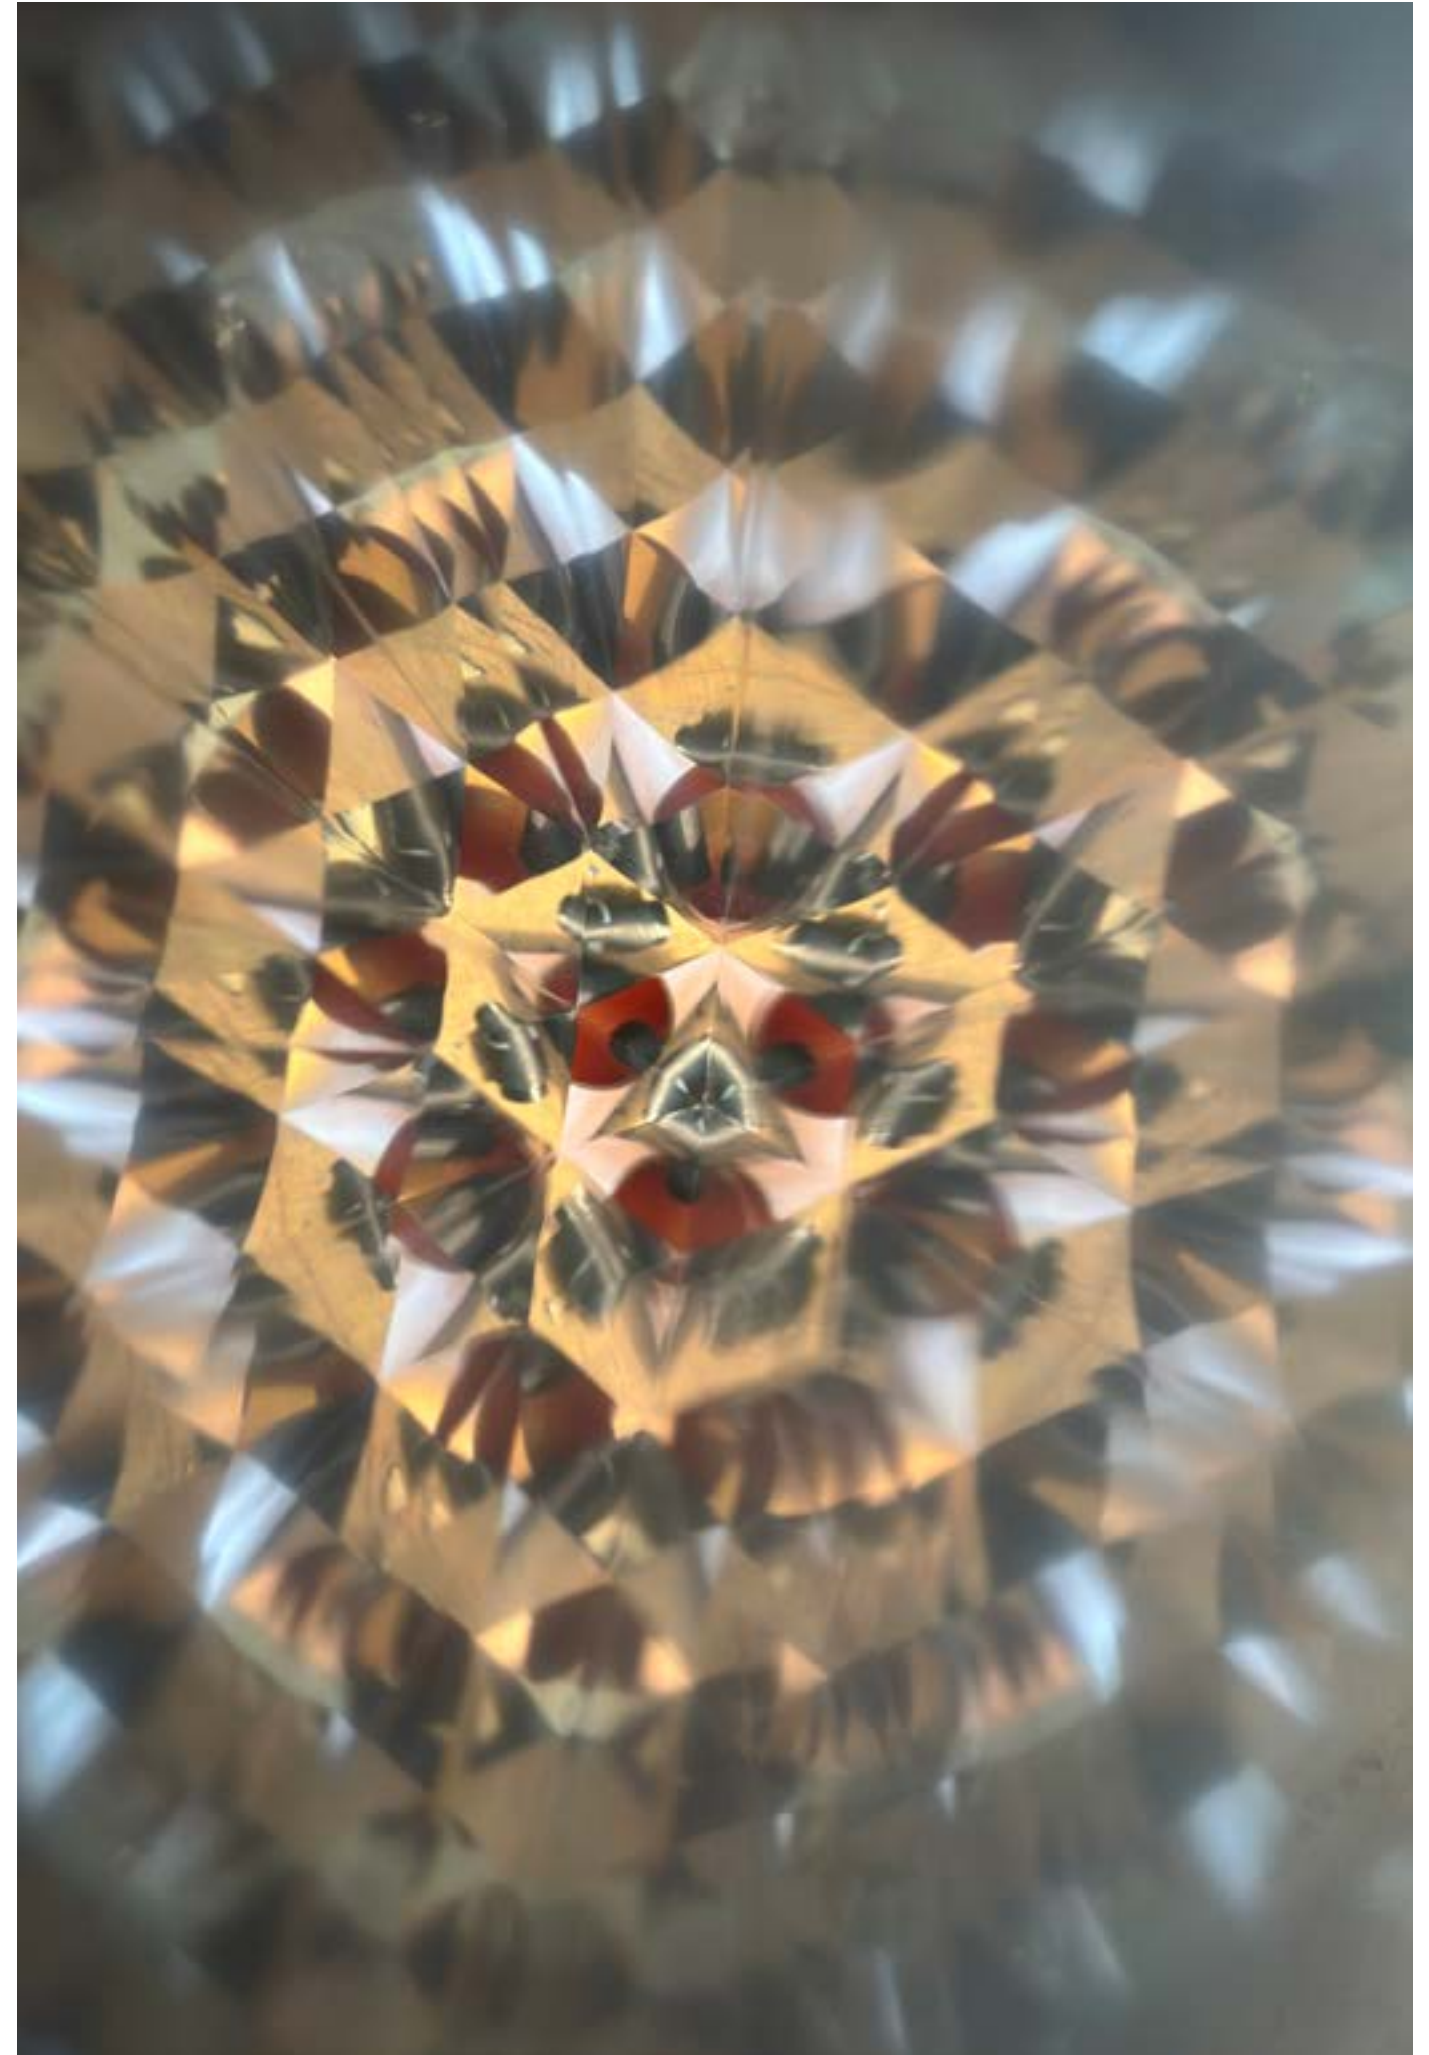

**“... og
dæk alle
kanter
med tape”**

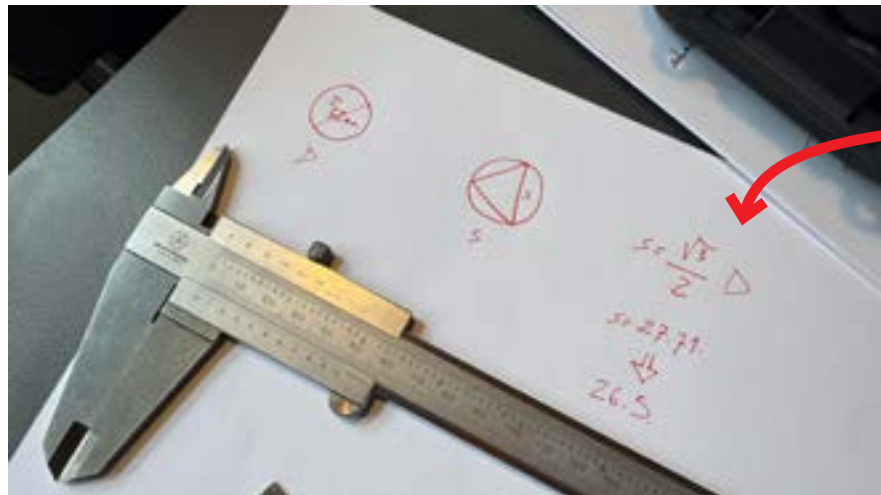

**“fold
striberne
forsigtigt
til et
trekant
rør...”**

“Hvis du gerne vil have at kalejdoskopet passer ind i et rør, kan du øve dig i matematik”

“lim eller sæt fast en gennemsigtig beholder for enden...”

**“... fyld den med ting,
og se hvad det sker”**
